RE: RFP 09-10-245 ITS Maintenance Plan for Transit-master CAD/AVL

Ms. Amy Knox
Contract Services
Emergency Radio Services, INC. (ERS)
4515 S. High School Road
Indianapolis, IN 46241

Dear Amy,

After extensive review by our evaluation team of all proposals submitted for the above RFP, ERS's proposal was the recommended choice. The evaluation team's findings were presented to IPTC Board of Directors, and ERS was approved for this RFP during the board meeting on January 28th, 2010.

Thank you for your patience during this lengthy procurement process. The IPTC team is looking forward to working with ERS on the maintenance of our CAD/AVL equipment.

At this point we will be moving to the contract phase of the procurement. We will forward 2 copies of the contract to be signed, please return both. An executed copy will be returned to you.

We anticipate having ERS take over the maintenance of our CAD/AVL equipment March 1st, 2010. Please call me with any questions, and congratulations on the award.

Sincerely,
