

INDYGO PURPLE LINE

SUMMARY

The 14.8-mile Purple Line corridor will connect two separate municipalities within Marion County—the City of Indianapolis and the City of Lawrence. For much of the corridor, the Purple Line will replace the existing Route 39 local service, IndyGo’s most productive route in its system. IndyGo applied for a Small Starts grant for 50% of the project cost in September 2018.

STATS

Stations: 31 proposed (23 new, 8 existing);
Level boarding
