

**RFP 17-07-263
Intelligent Transportation System**

August 1st, 2017

To: All Vendors of Record

RE: Addendum #1

All vendors are to accept the information contained herein as the official response of IPTC.

TO ALL BIDDERS OF RECORD AND TO WHOM IT MAY CONCERN:

This Addendum is being issued prior to the due date for receiving proposals.

This Addendum forms a part of the Contract Documents and modifies the original RFP as noted below and shall be incorporated into the Contract Documents. All other provisions of the RFP #17-07-263 released July 14th, 2017 with the exception of changes below, shall remain unchanged.

This addendum addresses the solicitation requirements matrix for RFP 17-07-263 INTELLIGENT TRANSPORTATION SYSTEM.

***IPTC has determined that it is in the organization's best interest to allow international references as well as United States references.**

This relates to the ITS Requirements Matrix attachment to the RFP. The language associated is found on line (1) one of the "central systems" heading: CAD/AVL System Software - The proposed CAD/AVL System Software shall have been deployed (installed and operational) in at least three (3) similar transit agencies in the United States for a period of not less than three (3) years.

IPTC agrees to change this language to the following: CAD/AVL System Software - The proposed CAD/AVL System Software shall have been deployed (installed and operational) in at least three (3) similar transit agencies for a period of not less than three (3) years.
