RE: Success Story

Etica's work with IndyGo for the last several years has had a dramatic impact on our evolution. The opportunity to work on IndyGo BRT Red, Purple, and Blue Lines along with many facilities projects has helped to increase our staff by 10% and contributed to annual revenue increases of up to 20%. IndyGo's dedication to diverse spending is helping firms like ours, as a WBE/DBE, expand our business within a community that we have a hand in creating and improving. IndyGo as an organization and its staff have been tremendous partners and advocates for the services we provide and have worked closely with us every step of the way.

Any business that is interested in working with IndyGo should take the necessary steps to do so. Obtaining certification as a Minority (MBE), Women (WBE), Veteran (VBE), and/or Disadvantage (DBE) business (if applicable) is a great way for small businesses to work with partners like IndyGo. These certifications, when used properly, enable a path for sustained growth.

Sincerely,

A handwritten signature in black ink that reads "Jessica Ann Nickloy". The signature is written in a cursive style with a large initial "J".
